- Make sure EVERY YEAR has this information filled out in FULL
- If necessary, **respectfully e-mail your teacher** to ask as to which assignment he or she would like you to upload for his or her respective class
- If you are missing information, do your best to backlog your information and upload documents and assignments via OneDrive
- If you don't have a project completed (if the due date is sometime in May), build out your page as much as you can and publish the changes you have made so I can see the progress. For example, create the button, link to a hidden page, and write your descriptions. If you don't have the artifact to upload there yet, publish what you can for the deadline.
